PROFILE

Full-stack developer experienced in React, Next.js, Express, and Django/DRF, building scalable web applications end-to-end. Skilled in developing robust REST APIs, responsive UIs, and integrating AI capabilities (speech-to-text, NLP, RAG) into production systems. Focused on clean architecture, performance, and delivering user-centric solutions.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, Python, React.js, Next.js, Node.js, Express.js, Django, Django REST Framework, TailwindCSS, Bootstrap, HTML5, CSS3

Databases: PostgreSQL, MongoDB, SQL, Redis

AI & Integrations: Gemini API, Web Speech API (Speech-to-Text), NLP-based feedback systems, RAG pipelines

Tools & Other: REST API design, JWT/Auth, Docker, Kubernetes, Git, Jira, Scrum, Responsive Web Design

TECHNICAL PROJECTS

Final Year Project: IELTS AI Mentor | <https://frontend-production-cb5d.up.railway.app/>

- Built a full-stack AI-powered IELTS preparation platform using Django/DRF and React, with speech captured via the Web Speech API for real-time speaking evaluation.
- Integrated the Gemini API to analyze speech and written responses, generating NLP-based scoring and structured feedback across IELTS band criteria.

BYD UAE Website | <https://www.bydae.ae>

- Developed a fully responsive car showcase website for BYD UAE using React and Tailwind CSS, featuring an interactive car configuration tool and a booking system.

BINGHATTI Industrial Portal | <https://www.binghatti.com>

- Developed a full-stack industrial services portal with dynamic content routing and backend API integration.

Volv Web Portal | <https://volv.co/ar>

- Implemented a content-rich portal using React and Node.js, optimizing performance and accessibility.

PROFESSIONAL EXPERIENCE

Big Immersive — AI Engineer

Feb 2026 – Apr 2026

- Integrated AI features — including speech-to-text, NLP, and RAG (Retrieval-Augmented Generation) — into client-facing applications.
- Built and maintained full-stack web applications with scalable REST APIs and RAG-based information retrieval.

Expedemy — Front End Developer

Oct 2025 – Jan 2026

- Built scalable, reusable frontend components using React, Next.js, and Tailwind CSS across multiple product modules.
- Supported technical documentation and UI testing, contributing to consistent quality across modules.
- Gained hands-on experience with real-world project deployment, debugging, and release workflows.

DataLinks.ai — Full Stack Developer (Freelance)

Oct 2024 – Aug 2025

- Built and shipped multiple full-stack web applications for international clients, following industry best practices for code quality, performance, and maintainability.
- Contributed to client projects including DP World and Al-Nassar, gaining direct exposure to enterprise-scale development workflows and standards.

VOLV AI — Full Stack Internship

Jul 2024 – Sep 2024

- Developed scalable MERN-stack applications to support multiple client requirements.
- Performed website updates, UI improvements, and backend API development.

EDUCATION

Bachelor's in Information Technology

University of Education, Lahore, Pakistan (2022 – 2026)
